Project Overview

Product Vision:

ProjectHub: Collaborate,Contribute,Create

FOR
University students seeking an efficient way to find, apply for, and collaborate on academic and industry level projects.

WHO
Struggle with project discovery, team formation, and mentor connections.

Project Connect is a platform
That simplifies project applications, fosters teamwork, and connects students with mentors.

THAT
Provides a structured hub for project opportunities, team collaboration, and real-time tracking.

UNLIKE
Traditional searches, disconnected outreach, and manual tracking.

Our Product

1. Smart Project Matching

- AI-driven recommendations based on skills, interests, and academic year.

- Projects categorized as Beginner, Intermediate, or Advanced.

2. One-Click Application

- Unified student profile for multiple project applications.
- Automated tracking and document management.

3. Community Collaboration

- **Forums & Peer Mentorship:** Seniors guide juniors.
- **AI-Powered Team Matching:** Connects students with complementary skills.

4. Direct Mentor Access

- Built-in chat and discussion forums.

5. Verified Industry & Academic Partnerships

- Authentic research and company-sponsored projects.
- Internship and career opportunities linked to project success.

6. Productivity Tools

- To-do lists, milestone tracking, and collaborative docs.
- Simplified workflow management.
